REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Applicants' Specification (see page 2, lines 23-25) defines an "extended block" to be a trace which allows multiple entry points but only a single exit point. The prior art of record does not teach a selection mechanism to select between an instruction cache and "extended blocks" (claims 4 and 17) or predicting the address of the terminal instruction of a next "extended block" (claim 9). For example, Mantripragada et al. (see page 2, third paragraph) and Mahlke (see page 46, first paragraph) teach the use of traces with multiple exits and a single entry point.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
